# REFLOMAX

Our Value is Your Safety

COPYRIGHT(C)2017 REFLOMAX CO., LTD.  
ALL RIGHT RESERVED

**REFLOMAX**  
Microprismatic Reflective Manufacturer

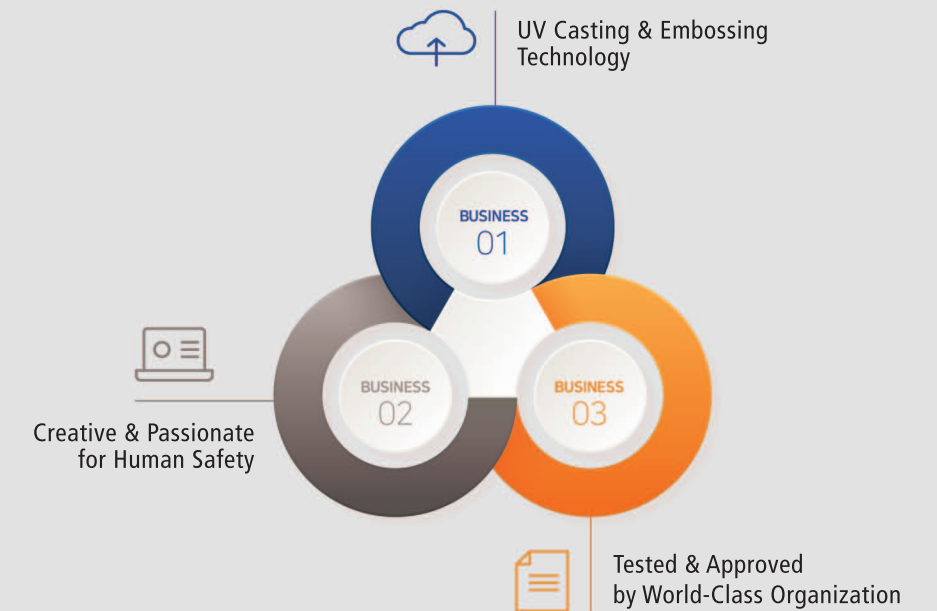

# REFLOMAX, We value your safety highly

Since 1989, we Reflomap has been thriving for much safer roadways and life by providing qualified micro-prismatic reflective sheeting with our own technologies and plant.

## Technology & Innovation

## Competitive Edge

### 01. Patent Mosaic Pattern

Reflomap's Mosaic Pattern provides stable reflective performance in orientation angle.

### 02. Comprehensive Technology

- **Embossing Technology**
  - Optimizing the combination of heat and pressure for embossing process according to materials
- **UV Casting Technology**
  - Ultraviolet light for curing process to make harder & stable prismatic structure in the reflective sheeting

Field Retroreflector

Temperature & Humidity Chamber

QUV Accelerated Weathering Tester

WE ARE NO.1 FOUNDER OF MICRO PRISM TECHNOLOGY IN ASIA.  
 WE STRIVE FOR A SAFER ROADWAYS.  
 WE PURSUIT OF PERFECTION PRODUCT.

## History

- 1989 Founded Dai Yang company as a Distributor for Retro-Reflective Fabric of 3M Personal Safety.
- 1997 Established Reflective Sheeting production system, Micro Prism type retro reflective sheeting.
- 1999 Registered trademark 'Glodian' Micro Prism Reflective Sheeting.
- 2000 Registered Patent on a new device for Glodian Roll Type Manufacturing System.  
Acquired EN471 Certification for Micro Prism Tape.
- 2001 Acquired CE Mark : SGS UK
- 2003 Company name changed to REFLOMAX CO., LTD.
- 2004 Authorized as a Venture Business by Business Administration in Korea.  
Selected as a Good Business in Exportation by Korea Export Center in Seoul.  
Selected as an INNO-BIZ Enterprise by Business Administration in Korea.
- 2005 Acquired ANSI/ISEA 107 Certification for Micro Prism Tapes.  
Acquired EN13356 Certification for Micro Prism Film.
- 2006 Joint-Venture Partnership with Reflexite Corporation (Avon, CT, USA)
- 2008 Succeeded to develop Micro-prismatic Reflective Material for Traffic Sign.
- 2009 Succeeded to mass-produced Micro-prismatic Reflective for Traffic Sign.  
Started Exporting Micro-prismatic Reflective Material for Traffic Sign.
- 2011 Became an Orafol Group company as a form of Reflomax–Orafol Joint-Venture
- 2015 Succeeded to developing Type 9 Superfine Grade Sheeting  
Brought back 100% independency from Orafol.
- 2016 Acquired AIS 090 and ECE104 Certification for European and Indian market for Vehicle Conspicuity Tapes
- 2017 Acquired test report of compliance to AS/NZS1906.1 for Class 900 and Class 400

## Certification

ISO 9001	ISO 14001	AIS090	CALCOAST DOT-C2	ECE 104
INNO-BIZ	CALCOAST-HIP	GB.T18833-2012	ANSI/ISEA 107	AS/NZS 1906.1

# TS Traffic Sign Sheeting Series

## 2. HIP 4000 - High Intensity Prismatic Grade

High performance for traffic control signs.

## Traffic Sign Sheeting

### 1. SG9000/SG8000 - Superfine Grade

Significant reflective performance with wide angles at traffic control signs on express ways.

### 3. EGP 2000 - Engineer Grade Prismatic Grade

Suitable for effective information about various traffic signs.

## 4. EC 1000 - Electro Cut Films & Lettering Films

## Custom Traffic Sign Sticker

### 5. Ready made & Under-film printing

#### What is Ready-Made?

Traffic sign reflective stickers with customized design and pre-cut condition for easy application, which is able to skip course of many normal processing.

#### What is Under-Film Printing?

Our special under-film printing technique protect ink from getting scratched and protect its color for long-lasting.

### Additional Information

Code Number	SG 9000	SG 8000	HIP 4000	EGP 2000	EC 1000
Main Applications	Traffic signage & Permanent signs				
Reflective Technology	Prismatic & Sealing type			Prismatic & Metalized	
Thickness	400 $\mu$ m				
Weatherability	10 years for general colors / 3 years for fluorescent colors				
Release Liner	80 $\mu$ m, polypropylene film, silicone coated on one side				
Adhesive	clear, solvent-based, permanent adhesive clear, solvent-based, permanent adhesive				
Length	50yds/roll				
Width	24", 48"				
Specification	ASTM D 4956-16b				
Colors	8 colors White, F.Yellow-Green, Yellow, F.Orange, Orange, Red, Green, Blue	8 colors White, F.Yellow-Green, Yellow, F.Orange, Orange, Red, Green, Blue	9 colors White, F.Yellow-Green, Yellow, F.Orange, Orange, Red, Green, Blue, Brown	5 colors White, Yellow, Red, Green, Blue	6 colors White, Yellow, Red, Green, Blue, Brown

### Packing

(unit : mm, kg)

Item	Roll Size (Width×Length) (unit : cm×M)	Carton Box Size			Net Weight
		W	L	H	
EGP, HIP, SG	92 × 45.7	990	225	215	20.2
	122 × 45.7	1290	225	215	26.7
FX	122 × 45.7	1290	225	215	32.9
TAC	92 × 50	990	225	215	27.1

# Glodian™ Traffic Control Series

## - Delineator / Cone Collar

### 1. TAC 500, Delineator Metalized Flexible Sheeting

High Performance metalized flexible micro prismatic reflective sheeting. Make sure to be overlapped on the bollard by 1~3 cm.

### 2. Cone Sleeve

- CS 310 (welded type)  
Compliance to EN13422 standard on traffic cones

- CS 320 (adhesive type)  
Cone Collar with adhesive tape

## - Sign Marking & Barricades

### 3. MC4000, High Intensity Prismatic Marking Grade

High level of retroreflective series for traffic markings on the road ways.

#### Additional Information

# VC Vehicle Conspicuity Series

## ECE-104, AIS-090 Vehicle Conspicuity Tape

### 2. VC-E4, VC-I9, Sealing Type

Glodian™ VC-E4, VC-I9 specification complies to ECE 104 Class C and AIS 090 Class C with high level of retro reflectivity to improve the visibility of drivers at night.

## DOT-C2 Conspicuity Tape

### 1. VC6H VC7H Sealing Type and VC6M, VC7M Metalized Type

Glodian™ VC6H, VC7H, VC6M, VC7M specification complies to FMVSS 108 DOT-C2 with high level of retro reflectivity to improve the visibility of drivers at night.

### 3. ECE 70 Rear Marking

Rear marking for improving vehicle conspicuity.

# Chevron Vehicle Marking Sheeting

## 4. VCC 4000, Chevron Vehicle Markings

Designed for drivers' safety by its high visible Chevron Vehicle Markings.

# Prismatic Car License Plate Sheeting

### Additional Information

Code Number	Car License Plate Sheeting
Durability	Up to 5-years when properly converted and installed
Retroreflective Elements	Micro Prismatic
Film Thickness	150 $\mu$ m(excluding release liner)
Surface Film	PVC
Adhesive Type	Pressure-sensitive Adhesive
Release Liner	Paper
Application Surface	Chemically treated or conversion coated aluminum
Application Temperature	15°C(60°F) minimum
Embossing Temperature	21°C(70°F) minimum
In Use Temperature Range	-10° to 65°C(14° to 150°F)

### Packing

(unit : mm, kg)

Item	Class	Carton Box Size			Quantity per box	Net Weight
		W	L	H

# PS Personal Safety Series

## 2. EFT-500 (Mosaic Pattern) / PFT-500 (Stripe Pattern)

Non-PVC refine materials used.

## EN ISO 20471 & ANSI/ISEA 107 Class2 Reflective Prism Tape

### 1. TRG-500 (Mosaic Pattern) / PGT-500 (Stripe Pattern)

Unique patterns for high visibility at various applications.

### 3. PGT-FB / PFT-FB

Fabric backed with cold resistance and dry cleanable materials.

# High Reflective Grade

## 4. AGT, High reflective grade

# Commercial Grade

## 5. RGT, Commercial grade

# EN ISO 20471 & ANSI/ISEA 107 Reflective Glass bead Tape

## 6. KR Series

Compliance to ENISO20471 standard, Industrial washable flame retardant, heat transfer and segmented.

### Microprismatic Tape Additional Information

Code Number	TRG-500	PGT-500	EFT-500	PFT-500	PGT-FB	PFT-FB	AGT	RGT
Main Applications	High-visibility garment, rain wear, construction worker jacket etc							Normal garment
Characteristic	Phthalate free Comply with harmless EN71 part 3 for children's toy regulation & AZO free		100% Non-PVC(no chloride, no phthalate, no plasticizer) cold resistance at -40°C		Fabric Backing			
Reflective Technology	Prismatic

# PM Professional Material

## 2. Enfren, Non-PVC ECO Material

Enfren is Chloride free reflective film with excellent high frequency welding property.

## EN 13356

### 1. AGR, Phthalate Free PVC Material

Complying EN71 Part 3 and free of AZO material for minimum performance and durability required with printable & flexible property.

## Fashion & Accessories

### 3. Enfren shine, Non-PVC ECO Material

Most shining effect for fashion items such as shoes, clothes and accessories in order to maximize shining effect without backing material. Available high frequency welding.

## 4. RGR, Commercial grade of PVC Material

Reflective PVC film with high frequency welding property and various colors.

## 5. FGR, Full reflective fabric Material

Microprismatic reflective fabric designed for fashion clothes. Easily workable by sewing on safety wear, rain wear, M/C Jacking and gloves etc. Non-PVC type available.

### Packing
