

# 5.5 Dual Mask Soap

## ▶ MAIN FEATURES

### ▷ Dual Shining Foam™

High polymerized soap is composed of moisturized natural foam and nutrient components. You can experience a moisturizing treatment and cleansing at the same time.

### ▷ pH 5.5 Balancing

The pH 5.5 balanced soap has pH level with our healthy skin. pH balanced formula recover the natural mantle of the damaged skin, protect your skin from various harmful environments.

### ▷ Initial development for baby

The first high polymerized soap was for infants. At that time, we decided against adding synthetic coagulant, surfactant, fatty acid, preservative, mineral oil and CIMT/MIT. The principle is strictly observed to 5.5 Dual Mask Soap as MOELET's promise.

## ▶ PRODUCT INFORMATION
