1927 – 2006 – OUR DAYS

2006–2008 – office furniture manufacturing

2008–2014 – manufacturing furniture for banks

(Sberbank, Alfa-Bank, Promsvyazbank, etc.)

2012–2016 – branded furniture manufacturing

(government institutions rebranding: GFC, FCA, etc.)

2009 - now – manufacturing furniture for airports

Nowadays the factory deals with the 3 main sectors:

1. Furniture manufacturing for shopping malls

(Sales, waiting areas, food courts, customer offices, VIP Furniture)

2. Furniture manufacturing for transportation industry

(Check-in desks, information stands, vip-areas,
auxiliary equipment: baggage trolleys, holding area seats)

3. Furniture manufacturing for events

(interior solutions for vip-areas, press centers, catering, decorative items
etc.).

Event managing experience: Eurovision, Sochi 2014, FIFA World Cup 2018

Ivanovo Furniture Factory was founded 1927.
During its first years it dealt with the component parts production for textile industry of the Soviet Union.

In the second part of the 20th century the factory introduced furniture manufacturing for homes and public establishments. The remarkable fact is that back then the furniture factory had a full range of wood processing facilities – from wood stocking to the final product manufacturing. The lack of timely retooling and modernization caused the factory to face some difficulties in the 2000s.
