EQUIPMENTS

| Item | Specification | Q'ty | manufacturing country |
|--------------------------|---------------|------|--------------------------|
| CNC machine | PUMA12(12") | 1 | Korea(Deawoo) |
| CNC machine | PUMA10(10") | 1 | Korea(Deawoo) |
| CNC machine | PUMA8(8") | 2 | Korea(Deawoo) |
| Milling machine | DMB-U3 | 1 | Korea(Doosan) |
| Milling machine | TMVH-2 | 1 | Korea(Tongil) |
| Milling machine | CNS-C112 | 1 | Korea(Hua shin electric) |
| Lathe | TIPL-4 | 1 | Korea(Tongil) |
| Lathe | DLG SH | 1 | Japan(Dainichi) |
| Lathe | Rex 870*2000 | 1 | Japan(Yamazaki) |
| Tapping machine | KTP-360 | 1 | Korea(Kiwon) |
| Drilling&Tapping machine | T-410 | 7 | Korea(Samwoo) |
| Radial | HOR-1100 | 1 | Japan(Ogawa) |

MAJOR PRODUCTS

We are manufacturing a variety of machine parts, casting products, and other products which are primarily made of nonferrous metals.

LANCE NOZZLE(TIP)

CHARACTERISTICS

- Cast copper produce
- Cu 90% or more

USES

- E.A.F(Electro Arc Furnace) Parts
- Copper products

BURNER

CHARACTERISTICS

- Pure copper produce
- Cu 90% or more

USES

- E.A.F(Electro Arc Furnace) Parts
- Copper products

We will do our best to offer precise processing, on-time delivery, and best quality based on many years of experience and know-how.

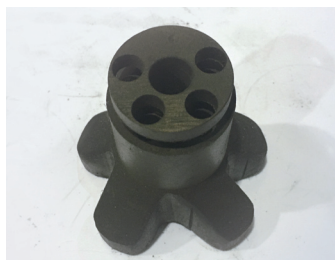

CUTTING NOZZLE

CHARACTERISTICS

- To cutting 350T~850T
- Produce by pure copper or brass

USES

- To cut for iron plate

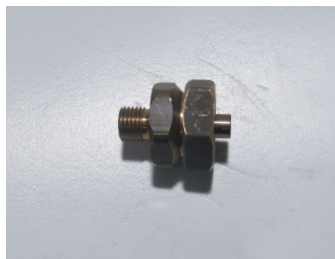

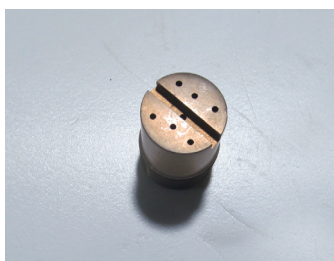

SPRAY NOZZLE

CHARACTERISTICS

- Produce by pure copper, brass and stainless steel

USES

- To spray a mixture of gas and liquid

We will do our best to build a strong relationship with customers and continue R&D efforts.

MACHINERY PARTS

CHARACTERISTICS

- Mostly customize products.
- Various materials.

USES

- Flanges, fittings and others

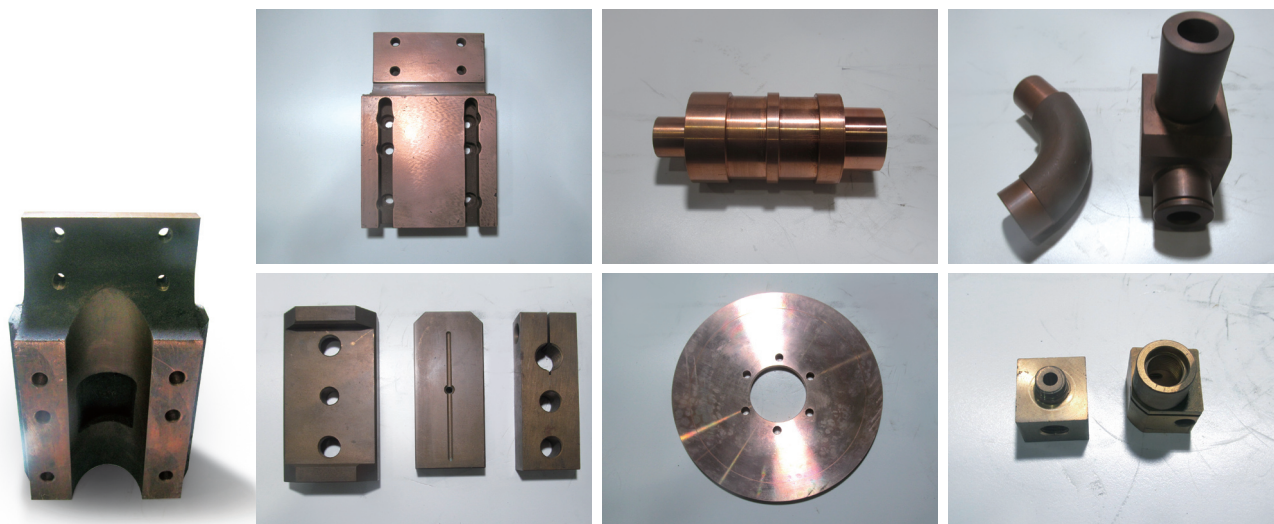

TERMINAL&BUS BAR

CHARACTERISTICS

- Produce by pure copper and copper alloy.

USES

- High conductivity
- To supplies or distributes electrical power

We will grow and change constantly
by **developing technology** with **customers**.
